WHEREAS, Chapter 204, Section 204.010(a)(6) of the Texas Property Code empowers the Association acting through its Board of Directors, to regulate the use, maintenance, repair, replacement, modification, and appearance of the subdivision and to implement written architectural Review guidelines; and,

WHEREAS, the Board of Directors (the "Board") has determined that in connection with maintaining the aesthetics and architectural harmony of the community, and to provide clear and definitive guidance regarding roofing materials therein, it is appropriate for the Association to adopt guidelines regarding roofing materials within the community.

NOW, THEREFORE, BE IT RESOLVED THAT the following Guidelines are adopted by the Board of Directors.

GUIDELINES

 - b. provide heating and cooling efficiencies greater than those provided by customary composite shingles; or
 - c. provide solar generation capabilities; and
2. All buildings shall be roofed with composition shingles unless otherwise approved in writing by the Architectural Review Committee. Wood shingles are specifically prohibited for safety reasons.

8. Once installed:
 - a. resemble the shingles used or otherwise authorized for use on property in the subdivision;
 - b. are more durable than and are of equal or superior quality to the shingles used or authorized to be used on other structures within the Association; and
 - c. match the aesthetics of the property surrounding the owner's property.

These guidelines are effective upon recordation in the Public Records of Harris County, and supersede any related guidelines which may have previously been in effect. Except as affected by Section 202.011 of the Texas Property Code and/or by these guidelines, all other provisions contained in the Declarations or any other dedicatory instruments of the Association shall remain in full force and effect.
